

Standard Warranty

K&M Industrial is committed to providing top quality rebuilding services to all our customers.

When it comes to pumps, K&M has set the standard to provide a warranty program.

Rest assured you're in good hands with a pump rebuilt by K&M Industrial!

Our strict overhaul and run test procedures follow a quality assurance checklist to ensure all rebuilds are returned to OEM specifications.

Our Warranty covers all parts and labor.

The Pursuit of Excellence

K&M Industrial, LLC is committed to providing top quality overhaul and rebuilding services. We utilize a strict overhaul procedure to ensure optimal performance by returning equipment to the original manufacturer standards.

We offer quality assurance by following ASTM, NCSL, ASQ, and SSPC guidelines. All of our test equipment is calibrated, certified, and traceable to NIST standards.

We provide support of the IT/Marine and Commercial Industrial line of pumps to the United States Coast Guard, United States Navy, Pulp/Paper Mills, as well as city municipalities and infrastructure.

We pursue excellence with every task!
